EDITOR DID NOT VIOLATE PURITAN BLUE LAW

BIMBA FOUND INNOCENT OF ANY BLASPHEMY

EVIDENCE, HOWEVER, FACTOR IN HIS BEING CONVICTED OF SEDITION

JUDGE KING COMMENTS ON THE LITHUANIAN DESIRE FOR LITIGATION

Brockton, Mass., March 2.—(UP)—Anthony Bimba, Brooklyn editor, was today found not guilty of blasphemy following his trial under a 229 year old Puritan blue law, but was convicted of sedition. The verdict was returned by Judge C. Carroll King, a direct descendant of one of the signers of the Declaration of Independence, who had had the case under advisement since Saturday.

Judge King imposed a \$100 fine on the sedition charge. Attorney Harry Hoffman, chief defense counsel, entered an appeal in behalf of his client from the sedition conviction.

"These two cases against Bimba are pretty well understood. Possibly I might add a little bit to the rather great amount contributed already," the court commented.

"The complaint in the blasphemy case is that the defendant did deny and contumeliously reproach God and there are certain particulars he set out.

"The complaint in sedition, so called, is that the defendant, did by speech, advise, counsel and incite to overthrow the government of Massachusetts and there are certain particulars on this charge.

"I want to say a little bit about the situation among the Lithuanians," the judge went on. "I feel that they resort too much in their religious and factional disputes to the courts. I say this with a background of experience. I served personally in three or four such disputes in the past. The epithets and characterizations running through this case are the same as in those.

"There is the same talk about one side being atheists, anarchists, communists and socialists and about the other side being unfair in that they are over zealous in their religious feelings. Perhaps the men driven out of one society formed another and the fellows who drove them out of the first voted them into the other.

"Possibly the government witnesses were ready to strike at their enemies."

"Another aspect of the case is the European political situation. As a result of the world war certain states were set aside as a means of preventing Russia and Germany getting together to rule the world. These include Poland, Lithuania and Czechoslovakia. Later these states were used to prevent the spread of the Reds. The Lithuanian government was perhaps used as a means of spreading Bolshevism over Europe and the government responded by arresting people believed to be emissaries of the Soviet government. We have heard in this case of the orator's references to those arrests."

The court, in brief comment on the religious questions raised in the case, expressed a belief that Bimba spoke merely "to stir his audience" and was attempting to "show the clerical government of Lithuania to be hypocritical and in its acts entirely irreligious."

"I rule the defendant declared personal belief in a way permissible by law and I find him not guilty of blasphemy," were the words in which the court dismissed this phase of the action.

125TH FIELD ARTILLERY REUNION

Duluth, March 2.—(UP)—Plans are underway here for the first reunion of the 125th field artillery regiment of the Minnesota national guard.

The convention will be held in April.

About 2,000 men who served during the world war and since in the unit are eligible to attend.

\$1,000,000 FIRE AT PHILADELPHIA

Pittsburgh, Pa., March 2.—(UP)—Fire swept the works of Hubbard & Co., tool manufacturers, early today, destroying buildings and machinery valued at nearly \$1,000,000. Two men were injured in fighting the blaze and a score of residents in nearby homes were forced out in the biting cold.

Biggest Liquor Conspiracy Indictment in Years

Congress Today

Senate: Muscle Shoals debate continues. Hearing on Stanfield grazing bill continues before public lands committee. Hearings on Dill radio bill continue before interstate commerce committee. House: Considers independent office appropriation bill. Naval committee considers equalization bill. Military committee considers private bills. Congress 100 Years Ago Today Not in session.

GENERAL PROBE OF PROHIBITION GETS BATTERING

MOVEMENT LACKS EVEN SUPPORT OF THE DRY ELEMENT

SECRETARY OF TREASURY MELLON OPENLY OPPOSED TO IT

By WILLIAM J. LOSH (United Press Staff Correspondent) Washington, March 2.—Assistant Secretary of the Treasury Andrews' plan for a general investigation of prohibition by a presidential commission was battered on all sides today, lacking even the support of the dries.

Secretary of the Treasury Mellon outspokenly opposes it, believing no good will come of it. Wayne B. Wheeler, general counsel of the Anti-Saloon League, is content to let the house alcoholic liquor traffic committee conduct the only investigation into prohibition he favors.

President Coolidge has not made his position on the proposed presidential commission known, but it is believed he will endorse Mellon's views on the general principle of upholding his cabinet officer. Mellon's repudiation of Andrews' was the second in a fortnight, the treasury secretary having already vetoed Andrews' plan for government purchase of all the remaining bonded whisky in the country and dispensing of it through federal channels.

Andrews continues to propose maneuvers and abides by the decisions of his commander in chief. Nevertheless the series of differences probably will speed the time of his resignation. He does not now intend to serve out the year.

HOPEFUL OF SETTLING DISPUTES WITH MEXICO

By LUDWELL DENNY (United Press Staff Correspondent) Washington, March 2.—President Coolidge is hopeful of a settlement of the disputes between the United States and Mexico over the southern republic's alien land and petroleum laws.

The president told Calles today that the differences between the two governments are not as great as the public has been led to believe and that he sees no reason why the differences cannot be adjusted.

The long standing dispute between the two largest republics of North America moved swiftly today toward a partial settlement.

Secretary Kellogg reported to Mr. Coolidge and to today's cabinet meeting that a compromise agreement was in sight on the petroleum law, through promised regulatory decrees to be issued by President Calles.

The American reply to the latest Mexican note will be dispatched following a conference this afternoon by Kellogg and Mexican Ambassador Tellez. It is conciliatory in tone.

ENGLISH AVIATORS RESUME KARACHI TO LONDON FLIGHT

Karachi, India, March 2.—(UP)—Flight Lieutenant Oliver and Flying Officer Brooks today resumed their five day dash from Karachi to London, after a start Monday that ended in a forced landing.

The Felix in which the flight is being made pushed back to its Karachi hangar by natives Monday and a faulty gasoline tank was repaired. A fierce sandstorm prevented immediate resumption of the flight. The next landing place is Chahbar.

FOURTH OF ITS POPULATION IS MADE HOMELESS

FIRE SWEEPS THROUGH SMALL TOWN OF NEWPORT, ARKANSAS

1,000 HOMELESS PEOPLE TAKE REFUGE IN CHURCHES AND OTHER PLACES

Newport, March 2.—(UP)—Members of the Arkansas national guard patrolled Newport today following yesterday's disastrous fire which destroyed 268 homes and razed 29 residence and business blocks. More than 1,000 persons made homeless by the conflagration are being cared for by Red Cross workers. Loss is estimated at nearly \$1,000,000.

The fire was brought virtually under control early today and it is reported that no more danger is expected from the flames. The state militia has been called out to prevent looting.

Two people were reported dead, but several were unaccounted for and the death list has not accurately been reported.

A thousand people have been made homeless by the blaze. Churches, business houses and any other means of refuge were resorted to last night for shelter. The American Legion is assisting the national guard unit in patrolling to prevent looting.

The fire cut a swath several blocks wide and a mile long. A lumber mill and a stove mill and some of the finest residences of the city were destroyed, it was discovered this morning.

FEW TENANT FARMERS FOUND IN WISCONSIN

Platteville, Wis., March 2.—(UP)—Wisconsin has a smaller proportion of tenant farmers than any other state in the union and, next to North Dakota, has the largest percentage of home owners, Attorney General Herman L. Ekern told local Kiwanians at a noon day luncheon.

"This may be explained by the fact that in Wisconsin those having an income of \$2,000 or less get a larger percentage of the total of all incomes than in any other state in the union," Ekern said.

POSTPONE HABEAS CORPUS SUIT OF COUNTESS VERA

New York, March 2.—(UP)—Vera, Countess of Cathcart's habeas corpus action, preliminary to defending her right to remain in the United States was today postponed until Friday by mutual consent of United States Attorney Emory R. Buckner and Arthur Garfield Hays, representing the countess. By Friday the countess is expected to be back on Ellis Island and a proper subject for habeas corpus action.

HAS A CHARGE ACCOUNT WITH MUNICIPAL COURT

Fond du Lac, Wis., March 2.—(UP)—John Hardgrove has started a charge account with municipal court here.

Records at the court show that Hardgrove owes the court \$49.85 in unpaid fines.

Recently, after being arrested on a charge of drunkenness, he asked for 30 days to pay the fine. This was granted.

On May 17, 1925, he was arrested on a similar charge and still owes part of the fine, which was imposed at that time.

SALE OF CANDY NOW BARRED IN OMAHA SCHOOLS

Omaha, Neb., March 2.—(UP)—Sale of candy in Omaha's public schools has been banned by the school board. The action followed a report that 2,500 students at one school spent \$2,700 for candy since January 1.

ABD EL KRIM STRIKES NEW BLOW AGAINST FRANCE

Fez, Morocco, March 2.—(UP)—Abd El Krim today struck his first blow in the renewed hostilities with France.

Barring peace or the defeat of the Rifian tribesmen, war will sweep through Morocco this summer as it did last with merely a truce in prospect when the rainy season prevents further major fighting next October.

A strong force of Rifian regulars supported by members of the Ouergha tribe invaded the Miteua country in an effort to prevent a French advance to the north of the Ouergha river. The French were endeavoring to reach Targuist, Krim's field headquarters.

ASK REFERENDUM ON BEER AND LIGHT WINES

DEMAND FOR LAYING PROBLEM BEFORE PEOPLE MADE BY SENATOR EDWARDS

N. J. MAN DECLARES ANDREWS' PROPOSAL FOR INVESTIGATION IS ANOTHER "DRY DODGE"

Washington, March 2.—(UP)—Demand for a national referendum on beer and light wines was made today by Senator Edwards, New Jersey, democrat, in connection with a statement attacking Prohibition Director Andrews' proposal for an unbiased commission to investigate the functioning of prohibition.

Edwards saw in the Andrews' proposal, which is disavowed by Secretary of the Treasury Mellon, "another dodge of the dries to evade responsibility for present day lax and disgraceful enforcement methods. He contended that such an investigation would whitewash present conditions.

"You might just as well try to take fat from butter as to take prohibition out of politics," Edwards said. "It was forced into the political arena by the Anti-Saloon League and allied bodies and the league has been doing all it can to keep it in politics."

CLOSE TO MILLION AND A HALF FOR STATE SCHOOL AID

St. Paul, March 2.—(UP)—Apportionment of \$1,463,409.60 to Minnesota schools was certified late yesterday by J. M. McConnell, state commissioner of education.

This is the second semi-annual apportionment and brings the total for the public school year ending in June to \$9,571,820.34.

Distribution is based upon enrollment figures submitted by school superintendents last September. The per capita rate is \$2.90 per student. The annual cost of schools is approximately \$58,000,000, according to Christopher Lindahl, accountant of the state department of education. The state is bearing almost one-sixth of the total cost.

The largest appropriation went to Hennepin county, which received \$246,906. St. Louis county was second with \$155,674. The smallest amount was paid Cook county which is listed for 415 pupils and received \$1,203.50.

Other appropriations follow: Stearns \$9,553; Crow Wing, \$6,025.

BUSINESS CONDITIONS FINE, SAYS HOOVER

Washington, March 2.—(UP)—Sound business conditions throughout the country are capable of resisting temporary flurries in Wall street, in the opinion of Secretary of Commerce Hoover.

"There is no condition today that changes the outlook from what it was a week ago," said Hoover. "Conditions are fine."

Hoover declined to venture a prediction that the prosperity wave which he saw in 1925 will be continued over 1926 and 1927.

"I do not like to predict conditions so far ahead, but I see no reason why there should not be a continuance of production on the present basis," he declared.

WANTS ABSOLUTE EQUAL RIGHTS FOR ALL WOMEN

MISS MABEL WHITTEMORE, VICE PRESIDENT NATIONAL WOMEN'S PARTY, ON TOUR

SEEKS REMOVAL OF EVERY LEGAL INEQUALITY BETWEEN MEN AND WOMEN

By FOSTER EATON (United Press Staff Correspondent)

Detroit, March 2.—In the interest of "absolute equal rights for women," Miss Mabel Whittemore, vice president of the National Women's party, left here yesterday on a cross country automobile tour to Santa Barbara, Calif.

"Along the line," Miss Whittemore told the United Press, "we will hold meetings and conferences to whip women into line for the next congressional elections."

"Attainment of equal suffrage is only a beginning in the fight for emancipation of women. Our party, which is against no one and for all women, aims to remove every legal inequality between men and women. "The rising toll of divorce courts we believe is clearly an indication of revolt against a situation where in practically every state in the Union a husband actually owns the services of his wife."

"While it is true that the ethical standards attained by women are far above the law," Miss Whittemore graciously admitted, "we feel that the time has come to write those standards into law."

WISHES TO REMOVE LIQUOR QUESTION FROM POLITICS

Washington, March 2.—(UP)—Congress should pass legislation authorizing President Coolidge to appoint a "fact finding" committee to study the sociological effects of prohibition to remove the liquor question from politics, Assistant Secretary of Treasury Andrews said yesterday.

"Such an investigation would be tremendously advantageous both to law enforcement and moral effect," Andrews said. "The president would undoubtedly appoint men of such quality the public would have confidence in their findings, then we could go ahead enforcing the law quietly and courageously."

"The results of such an investigation would eliminate the conflicting wild statements that are being made. The public mind would settle down and this would greatly aid our work."

"At present we do not know whether the country is better off socially and morally. We have no means to determine this. So far prohibition has not had a fair test. There will be no fair test until congress gives dry agents all the power they need and creates sufficient judicial machinery to handle liquor cases. At present there are many sections that have under manned judicial machinery."

After a two hour executive session the house alcoholic liquor traffic committee announced that it would begin its survey of prohibition conditions in about a week, with General Andrews as the first witness.

Chairman Hudson, Michigan, announced that the committee had agreed on a plan of procedure but refused to reveal any of its phases.

Treasury-Postoffice Appropriation Bill

Washington, March 2.—(UP)—President Coolidge today signed the treasury-postoffice bill carrying \$568,281,501 for running those two departments for the fiscal year ending June 30, 1927.

JAPANESE FOREMAN KILLED IN LABOR RIOT, SHANGHAI

Shanghai, March 2.—(UP)—A Japanese foreman was killed in a labor riot today.

About 6,000 Chinese laborers struck and it is probable that the strike will become general. Officials are endeavoring to mediate the dispute.

CONVERTED CYNIC DELEGATE TO THE CATHOLIC CONGRESS

Chicago, March 2.—(UP)—Giovanni Papani, the converted cynic, who wrote "The Life of Christ," is expected to be one of the outstanding delegates to the International Eucharistic congress here in June.

Papani has been invited by a group of Chicago Italians and he is expected to lead a party of lay delegates from Rome. The renowned author is expected to lecture a number of times in this country in case he comes to the Catholic conference.

SAYS COLLEGE EDUCATION IS NOT WORTH WHILE

EMMETT V. MAUN SPENT YEAR LOOKING FOR JOB AFTER GRADUATION

SAYS THE NEBRASKA COLLEGE SHOULD EMPLOY VOCATIONAL GUIDANCE DIRECTOR

Lincoln, Neb., March 2.—(UP)—After spending a year seeking a job following his graduation from the University of Nebraska, Emmett V. Maun, Nebraska youth, has decided a college education is not worth while.

In a letter to the Alumnus, magazine of the university, Maun declares he has found it frequently necessary to work alongside totally uneducated people to make a living since graduating from college.

"My diploma simply branded me as an apprentice at everything I tried," Maun wrote.

Maun concluded that universities will be taking a forward step when they dispose of Latin, Greek, economics, history and English professors and use the money thus spent to employ a "competent" vocational guidance director.

"Out of all the studies I took during my four years," Maun wrote, "I did not learn a single thing that fitted me to assume duties in any kind of business. I simply had a bunch of theories in my head and no concrete facts or knowledge to go with them."

The Daily Nebraskan, students' newspaper of the university, retailed today with an editorial entitled, "Trying to Dollarize My Education."

"It is to be hoped that there are no more Emmett Mauns at Nebraska University," the editorial said. "If Maun had not received a college degree, his remarks would be ignored, but since he has, it is a matter of concern. Such a philosophy constitutes danger marks for our educational system."

Chancellor Samuel Avery declined to express his views on Maun's criticisms today, saying that similar letters were occasionally received.

STATE FINISHING GRANDPA NUSBAUM MURDER CASE

Chicago, March 2.—(UP)—With three witnesses themselves implicated in the murder, according to their own statements, having testified and directly accused John Walton Winn and "Grandma" Eliza Nusbbaum of the murder of "Grandpa" Albert Nusbbaum, the state was expected to conclude its case against Mrs. Nusbbaum and Winn late today.

Three police officers who investigated the murder were scheduled to take the stand this afternoon.

Giving the defense two days to complete submission of its testimony it was considered likely that the case may reach the jury Thursday afternoon.

REWARD INCREASED FOR THE CAPTURE OF MURDEROUS GUNMEN

St. Paul, March 2.—(UP)—Another \$100 was added to the reward offered today for capture and conviction of the gunmen who murdered two policemen here last week. The Fire Fighters' union voted the last addition. Squads of detectives are continuing their search for evidence which may shed some light on the identity of the murderers but no further arrests have been made.

ABOUT 125 PERSONS MAY BE DESIGNATED

INCLUDES ALCOHOL BARONS, OFFICIALS, RAIL EMPLOYEES, BOOTLEGGERS

ST. PAUL OFFICIALS ON WAY TO CLEVELAND TO GIVE TESTIMONY

Cleveland, O., March 2.—(UP)—The federal grand jury is expected to return the greatest liquor conspiracy indictment in the nation's six year history of prohibition on Thursday at the conclusion of its probe of the \$20,000,000 interstate alcohol ring. Approximately 125 persons, alcohol barons, officials, rail employees and bootleggers are expected to be named as conspirators in the plot to divert millions of gallons of alcohol to bootleg purposes.

Federal authorities today awaited the arrival in Cleveland of a municipal judge from St. Paul, who has been summoned here by telephone in connection with the rum quiz. A few straggling witnesses remain to appear before the grand jurors before the indictment is returned. United States Attorney A. E. Bernstein and his aides are busy drawing up the voluminous document, which will trace the operations of the ring, according to the evidence unearthed.

The method of summoning prospective witnesses by wire and holding subpoenas in Cleveland has been used the last week by George E. Golding, treasury department agent in charge of the investigation, to hasten proceedings.

Julius P. Michels and several railroad employees similarly summoned last week were placed under arrest upon their arrival in Cleveland as conspirators in the liquor ring. Michels is owner of the garage here alleged to have been used by the bootleggers.

2 ST. PAUL MEN TO TESTIFY IN CASE

St. Paul, March 2.—Municipal Judge John W. Finehout and Assistant County Attorney Allen McGill are on their way to Cleveland today to give testimony at the grand jury investigation of an alleged liquor syndicate whose operations spread over half the country.

Telegram summons for the two officials were received yesterday. They were notified that subpoenas awaited them in Cleveland. No hint was given concerning the nature of testimony expected from them.

It is believed the officials will be questioned concerning court procedure after the arrest of three men and confiscation of two truck loads of alcohol in April, 1924.

The trucks bore the name of the "Hart Storage and Transfer Company, Duluth." The drivers gave the names of Charles Ransch and Harvey Grandmain, Duluth. Sammy Harris, St. Paul, was with them.

Cases of all three were continued by Judge Finehout to permit investigation by the county attorney's office. On recommendation of McGill, the two drivers were later released and Harris forfeited his bail.

The trucks were released to prohibition authorities and, according to Golding when he conducted an investigation here last fall, the confiscated alcohol "turned to water."

MRS. GEO. C. SQUIRES, ST. PAUL CLUB WOMAN, DIED FROM INJURY

Wells, Minn., March 2.—(UP)—Mrs. George C. Squires, St. Paul, one of the most prominent club women in the northwest, died at the country home of her daughter, Mrs. Mackey Thompson, here today from injuries received in a fall down stairs.

The accident occurred early this morning. Physicians who attended Mrs. Squires said her neck was broken in the fall.

Mrs. Squires was founder of the American Legion Auxiliary in Minnesota, regent of the St. Paul chapter, G. A. R., twice nominated for national regent, and a member of the Colonial Dames. She was also prominent in civic and social organizations of St. Paul.

The body will be taken to St. Paul for burial.

LOCAL NEWS NOTES

Game Warden A. P. Cardle states that 160 of the 800 missing hunting licenses were reported since the last notice. He also says that the state department will shortly call the game wardens off this work of checking licenses, and the hunters who then have failed to report will be out of luck without further recourse. He urges all hunters to report at once.

SEN. LENROOT DEFENDS THE WORLD COURT

SAYS ITS FOES CENTER THEIR FIRE ON LEAGUE OF NATIONS

LEAGUE, WITH GERMANY ADDED SOON, HAS 56 MEMBER NATIONS

Milwaukee, Wis., March 2. — (UP)—"Foes of the world court do not discuss the world court, which we propose to join, but discuss the League of Nations which we do not propose to join," Senator Irvine L. Lenroot, administration leader in the fight for the world court in the senate, declared in an address here last night.

Speaking before a large crowd under the auspices of the American Luther association, Senator Lenroot explained the world court and said: "All of the anti-court senators believe that the League of Nations is an instrument of the devil and composed of the enemies of the United States. If that is so, then indeed the world is in a sorry way, for 55 nations of the world now belong to the league and when Germany becomes a member next week there will be 56."

Foshey Company Acquires More Properties

Minneapolis—Three northwest hydroelectric companies have been purchased at a cost of \$3,500,400 by the W. B. Foshey company, H. H. Henley, vice president here announced yesterday. The companies are Red River Valley Power company, Crookston; the Minnesota Electric Light & Power company, Bemidji, and the Waconia Light & Power company, Waconia.

BOMBARDIER JOHN LINCOLN DIES ON SCAFFOLD

PAID WITH HIS LIFE FOR MURDER OF EDWARD RICHARDS OF LONDON

FATHER OF CONDEMNED MAN IS FORMER MEMBER OF PARLIAMENT, BRANDED AS SPY

London, March 2.—(UP)—Bombardier John Lincoln died on the scaffold today while his notorious father still hurried toward Septon Mallet prison for a last word with his condemned boy.

Crowds loitered around the prison until after midnight in the hope of seeing Trebitsch Lincoln arrive at the end of a pitiful journey from a monastery near Colombo, Ceylon, where he had sought retirement from the world following his conviction as a spy in the pay of Germany and subsequent exile from England.

At 8 A. M. the loiterers around the prison gate hushed. Within the prison young Lincoln had mounted the scaffold to pay with his life for the Christmas Eve murder of Edward Richards, who had surprised the young soldier in the act of robbing his home.

John and Julius Lincoln, the doomed man's brother, had been awake all night, one pacing a hotel room, the other a cell. The notorious father was no one knew where, except that he had not reached the side of his son. He was reported to have passed through Paris Monday afternoon.

For the brief period of his son's confinement in a death cell, Trebitsch Lincoln, former member of parliament, later a German spy, and barred from England as a traitor, was restored to the honorable status of father of a British soldier.

Despite the fact that the soldier son was a murderer, the war office and other government departments co-operated to assist Trebitsch Lincoln to Septon Mallet prison in the event he actually reached England. The last train which would have brought him to the prison gates before the execution had already gone Monday night but the government was prepared to assist him with an automobile or an airplane if necessary.

One thing the government refused to do. It would not postpone the execution of the murderer. As soon as the trap was sprung beneath John Lincoln, the soldier son ceased to exist and the father reverted to his status of traitor and enemy to the state. If he arrives at any English port now he probably would not be permitted to land.

DR. RILEY'S TALK ON EVOLUTION NOT TO BE GIVEN

Minneapolis, March 2. — (UP)—An invitation to Dr. W. B. Riley, pastor of the First Baptist church here, to speak at the University of Minnesota, was rescinded today.

The subject announced by Dr. Riley was "Should Evolution be Taught in the University?" The invitation was withdrawn when he announced the present policy of the university in teaching the subject would be attacked.

Dean J. F. Kelly, who announced the action of university officials, explained that while an anti-evolution talk was expected from the famous fundamentalist, an attack on the administration policy was not.

"Colds" Afflict Holland

In Holland "catching a cold" is a national trouble. During the winter half of the Dutch people snuffle while the other half recover from colds. The raw sea winds of the lowlands seem not yet to have hardened the Hollanders. In no country is the handkerchief industry more prosperous.

A scientific inquiry into the causes of "colds" in the Netherlands and means to prevent them has been organized by the sanitary section of the University of Amsterdam. The inquiry will last 35 weeks. From all parts of the country signs of sympathy have reached the heroes of science who will try to cure Dutch of a great affliction. Eight thousand Hollanders offered to support the inquiries in their campaign.

New Terror of the Air

A radio-steered and propelled torpedo plane capable of swooping down from the sky, in flotilla formation, at 150 miles an hour and launching swarms of torpedoes on hostile naval squadrons at sea, has been tested and O. K'd by the British admiralty, which ordered a large number to be built. One feature of this first torpedo-carrying seaplane is the extraordinary rapidity with which it can change direction, which means that, after swooping down to discharge its load of death and destruction, it can quickly rise out of range of anti-aircraft guns. One more reason for going slow about building more \$56,000,000 battleships.—Capper's Weekly.

Island Russia Forgot

Bolshoi Dionid, an island in the Arctic ocean, just north of Eering strait, almost forgot that it belonged to Russia and thought itself part of the United States. No Russian ship had called at the island for ten years until the man of war Vorovsky arrived there a few months ago. Its officers then learned that the inhabitants knew nothing about the Union of Soviet Socialist Republics or of Soviet culture and believed that Russia was still a monarchy. This impression will be corrected. The island's connection with the outside world has been through an American coastal schooner that made regular trips from Alaska.

Hopelers Case

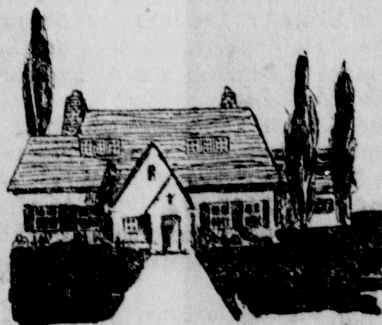

David Starr Jordan was bemoaning the tendency of young America to fail in the respect and obedience due to parents. "Why, only the other day," he said, "as I stopped to hear two little friends of mine on the corner one said:

"I understand you have a new nurse girl at your house. Do you like her?"
"To which the elder of the boys replied:
"Naw. She don't mind us kids any better than pa and ma."

Druggist Killed by Oil Well Drill
Chisholm—The body of Edmund J. Casey, 60, prominent Chisholm druggist, who was killed when caught in the machinery of an oil well drill, near Billings, Mont., was brought here for burial yesterday.

JOINT WATER-LIGHT, CITY BUILDING

Council Will Advertise For Bids,
Built on City Property on
Laurel Street

ALL ALDERMEN PRESENT

Water And Light Board Plans \$25-
000 Improvements This Year,
New Well Drilled

The city and the water and light board will jointly build a warehouse on West Laurel street, the council at its meeting last night considering the plans presented, and authorizing the advertisement for bids.

W. D. McKay, secretary of the water and light board, was present at the council meeting and spoke regarding the budget of the board for the coming year. He stated that the board is planning extensive improvements for the year, intending to expend \$25,000 for this work. Included in the plans are the joint warehouse, a new well at the pumping station south of the city, and the removal of poles from the streets to the alleys.

He asked that when the bids are called for, that separate bids be asked on the city part of the warehouse and the water and light board part, so that the board may build its own part using its own men, in case it finds that the work can thus be done at a lower figure.

On motion of Aldermen Martin Anderson and Wesley, the city clerk was instructed to advertise for separate bids on the warehouse for the water and light board, and on the warehouse for the city, these bids to be returnable April 19, 1926.

New Well to be Drilled

Well group No. 2, of the city wells, was reported as having considerable iron composition of late, and the well group is being used only about one-fifteenth of the time at present, mostly for priming purposes. On motion of Aldermen Paine and Holmstrom, the city clerk was authorized to advertise for bids on drilling one open well, according to plans to be furnished by the water and light board, these bids to be opened April 19.

Aldermen Ritari and Martin Anderson submitted a motion authorizing the purchase of one carload of poles and \$2,500 worth of wire by the water and light board. On roll call, all members voted yes.

Sewer Petitions Filed

Two petitions were presented to the board by residents of Southeast Brainerd, regarding the proposed district sanitary and drainage sewer on Rosewood street, between 12th and 14th streets. One petition favoring the sewer carried 9 signatures, representing 56 lots, while the other opposed the sewer, and carried 10 signatures, representing over 31 lots. On motion of Aldermen Paine and Wesley, the matter was laid on the table.

On motion of Aldermen Ritari and Paine, the matter of putting in drainage tile at Rosewood street was referred to the city engineer, the costs to be estimated, and reported at the next meeting.

7 Milk Licenses Granted

Seven applications were on file for milk licenses, all recommended by the dairy inspector and on motion of Aldermen Martin Anderson and Holmstrom, they were ordered issued. They were Mrs. Peter Larson, Joshua Peterson, Louis Moilanen, Mrs. J. Jelacic, H. F. Hermanson, Mrs. J. H. Mueller, and C. H. Smith.

The monthly reports of the clerk of municipal court, dairy inspector, and city nurse were read and accepted. The report of the water and light board was read, and on motion of Aldermen Martin Anderson and Holmstrom the same was accepted when properly signed.

Fire Truck Test Here

Alderman Lyons reported on the inspection of the new fire truck. He told of having interviewed Mr. Lund of the state fire inspection bureau, who had said that the inspection could be conducted in Minneapolis at no cost to the city, or at Brainerd with payment of transportation and one day's expenses for an inspector in coming to this city.

The council voted, after motion by Aldermen Martin Anderson and Ritari, to have the test made in Brainerd, as this will save the expense of driving the truck to Brainerd after the inspection, and also the expense of having a representative from here go to Minneapolis for the test.

The city clerk was instructed to notify the agent to have the truck shipped directly to Brainerd, and also notify the state inspector upon arrival of the truck.

Alderman Lyons also reported on the tax conference, which takes up tax matters in general.

City Attorney D. H. Fullerton reported on an interview with the assistant to the president of the N. P. Ry. Co., in regard to an underground crossing at 12th street, connecting Northeast and Southeast Brainerd.

Miscellaneous Matters

On motion of Aldermen Martin Anderson and Quamstrom, \$2,500 was transferred from the emergency fund to the general fund, and the balance, some over \$2,400, transferred to the public safety fund. Aldermen Ritari and Quamstrom

moved that Joseph Brusseau be employed by the month instead of by the hour, at \$150 per month, beginning March 1. The motion was carried.

The city engineer reported on securing the loan of equipment for the tarring of the streets, this work to start soon.

On motion of Aldermen Martin Anderson and Ritari, the chair was asked to appoint a committee to consider the matter of parking in the downtown streets during the summer months. The president, Mr. Lyons, appointed the street committee and the police committee.

On motion of Aldermen Martin Anderson and Verner Anderson, the council accepted the plans for the city's part of the warehouse on city lots, as presented by the city engineer.

Erick Derksen requested the use of the Holland pasture for the coming season, as in previous years, and on motion duly carried, the request was granted.

All members were present at the meeting last night. The minutes of the previous meeting were read, and Alderman Martin Anderson asked that his vote on the matter of bond retirement be changed from no to yes. The usual bills were allowed as approved by the finance committee.

Girls Questioned and Released

Minneapolis—The two girls who were arrested Sunday and questioned regarding the whereabouts of their bandit sweethearts on the night of the St. Paul police murder, were released yesterday. The confessed bandits were quizzed again last night and repeated that they knew nothing of the murder.

Landlord and Tenant

A tenant cannot claim redress from the owner of the house in which he lives or has his business because the erection of a building on an adjoining parcel has shut off light and air from his premises, unless provision is made for such emergency in the lease. The case is not altered even if the owner of the adjoining building is the tenant's landlord.

Council Ruled Colonies

The Spanish king was represented in all affairs relating to America and the East Indies by the council of the Indies, a body created by King Ferdinand in 1511. The council's seat was in Madrid.

Known Chemical Elements

There are 92 chemical elements known to science, beginning with hydrogen and ending with uranium. Of these, 89 have been discovered. The latest discovery was rhenium, which resembles manganese.

STRENGTH

Away back in history, sturdy Norsemen found cod-liver oil sufficient to help develop marvelous strength and endurance.

Scott's Emulsion

is cod-liver oil like the Vikings thrived on prepared in the form of a rich, tasty cream. It builds strength and endurance.

New-Day Performance, more than just Speed, enabled

The New-Day
JEWETT SIX to smash all records
in the Detroit-Chicago run!

THINK of it! From the center of Detroit to the center of Chicago in the phenomenal time of 6 hours and 5 minutes, elapsed time! Thirty-five minutes faster than the fastest time ever made by the famous "Wolverine"—crack Michigan Central train!

Shattered at last is the record that has been shot at for years by the best drivers in the biggest and fastest cars! And by a stock car—driven by a non-professional driver—over icy, slippery roads.

The New-Day Jewett accomplished this tremendous feat—not so much because of great speed, but rather because of its remarkable ease of handling, its quickness to stop with Paige-Hydraulic 4-wheel brakes, its lightning-like acceleration, its wonderful roadability—and adaptability!

Because, in short, of all those exclusive features that so clearly and unmistakably establish it a "New-Day" car!

Coming quick on the heels of the first announcement of this New-Day car—this amazing record establishes beyond all doubt not only the superior new performance of this New-Day Jewett Six—but its superior stamina and strength as well.

You may never need or want the great speed of The New-Day Jewett Six. But you do need and want its "New-Day" performance—its ability to get you through traffic or across country in less time, with less effort, with no inconvenience or annoyances of any kind.

You can see and drive an exact duplicate of this record-breaking car at our showroom. Come in—and drive one soon!

TUESDAY MARCH 2, 1926

DEERWOOD WOMEN ORGANIZE SEWING UNITS

Two units of the Women's Sewing Project with 15 women in each, have been formed in Deerwood, says the Deerwood Enterprise in an article published last week. A unit of high school girls is also planned. The first meeting will be held in the Mothers' club rooms, Crosby armory, on March 17.

The outline of study includes clothing—1. Short cuts. 2. Patterns, placket and neck finishes. 3. Fitting patterns, selecting wash materials, selecting color and line. 4. Use of guide patterns.

Finishes in silk and wool. 1. Accessories, decorative stitches. 2. Art in dress. 3. Textile and clothing selection. 4. The well dressed woman.

These units are a result of the meeting held February 11 in the Chamber of Commerce rooms in Brainerd when 60 women from all parts of Crow Wing county attended the organization of a woman's clothing project. A complimentary luncheon was served the ladies by the Chamber of Commerce.

Miss Julia Newton of the University Farm, St. Paul, assisted by County Agent E. G. Roth, conducted the meeting. A number of groups were formed at this meeting, two women from each township in the county being chosen to represent these groups. Fifteen women are chosen for each group, and two leaders are appointed in each group to attend the meetings which will be held in Brainerd, Pequot and Crosby, to be presided over by Mrs. Bessie Duggan of the University of Minnesota.

As reported by County Agent Roth some 20 units have been formed to date with a total enrollment of 300 women. These units include Ideal, Little Pine, Jenkins, Nisswa, First Assessment District, Baxter, Twin Lake, Crosby, Nokay Lake, Long Lake (4), Perry Lake, Fairfield, Neutral, Oak Lawn, North Bay Lake, Deerwood (2), Pine Center in Roosevelt township.

Other units in process of organization include Center, Merrifield, Riverton (2), Pelican, another in Lonk Lake, South Bay Lake, Emily, Timothy, Lum park vicinity, and South Sixth street. Brainerd women are eligible to join if they wish to form a neighborhood unit. The end of this week marks the close of entries of units.

The next meeting of the units in the vicinity of Brainerd will be held at Brainerd March 15. Units in the vicinity of Pequot meet there on March 16, and the Crosby branches March 17 at Crosby. A series of three such meetings will also be held in April, May and June, closing with the exhibits made at Brainerd by from 400 to 500 of the organized women.

The course of study also includes mechanism of the sewing machine and how to clean it; how to use the different attachments that come with the sewing machine; the use of patterns, intelligent choosing of colors, the making of garments and the making over of used garments; remodeling clothes for new purposes, and methods of using materials in the most economical way.

The whole course of study has a direct bearing on home management for proper and economical clothing of the family is just as important as any other item in an intelligent and well balanced budget caring for a family's needs.

FIDDLERS BECOME POPULAR

"The picturesque old fiddlers are coming into their own," says the Staples World editorially. "Their vogue is as great as that of the tango stepper of yesteryear or the Charleston of last week. Contracts that must seem fabulous to the hard working, simple living old gentlemen are waved in their faces in vaudeville offices, says a New York item. It is said that Broadway expects a hundred or more fiddlers before the winter ends. Many states are holding fiddlers' contests to select the state champion. City play houses are featuring fiddlers.

"He is a fortunate old gentleman, indeed, who has had a fiddle for his companion down the years. The fiddler derives a great deal of comfort from his fiddle, which has been a constant companion to him through life, and he must give a wealth of pleasure to others. There will be fiddlers while yet there are fiddlers, for the violin offers a companionship not lightly to be dismissed."

NORTHERN PACIFIC BUSINESS INCREASES

The Northern Pacific railway company had a good year in 1925. There was available \$17,944,288 for dividends and other corporate purposes from its 1925 business, as compared with \$15,970,244 the previous year.

Total railway operating revenues were about \$2,500,000 greater in 1925 than in 1924, while railway operating expenses in 1925 were about \$500,000 less than in 1924, bringing the operating ratio down from 74.02 in 1924 to 71.5 in 1925. The company's total income in 1925 was \$33,306,483 as compared with \$31,344,508 in 1924.

WAR DEBTS BEING PAID

SEVEN nations owing war debts made payments December and the total amount paid was more than \$95,000,000. The amounts as paid by the various nations were Great Britain \$92,510,000; Belgium \$677,432; Czechoslovakia \$1,500,000; Finland \$180,000; Lithuania \$46,678; Poland \$500,000; Hungary \$39,611.

THE Aitkin Independent Age comments on women in men's jobs and mentions that Crow Wing county boasts the only woman game warden in the state—Mrs. Florence Stukel—whose home is near Outing on Roosevelt lake. She has secured 12 convictions during her service, taking her prisoners before Miss Nellie Swanson, a woman justice.

THE new plan of the Treasury Department of buying Liberty bonds direct from the owners has proved to be a success. A total of \$66,000,000 of the Third Liberty Loan has been so retired.

THE DISPATCH has received a report that two old residents of Brainerd, one 64 and the other 71 years of age have grown brand new sets of teeth.

THE highest worship of God is service to men, and that's the province of the true brotherhood.

STAPLES is to take a referendum vote on a new city hall.

DADDY'S EVENING FAIRY TALE

by Mary Graham Bonner
COPYRIGHT BY WESTERN NEWSPAPER UNION

FREEZING WORDS

It was very cold one afternoon and Eugene had thought he had never known it to be so cold.

There had been some mild weather and everyone had said: "It seems as though there were spring in the air."

But right after that it became very, very cold, and if spring had been in the air she had certainly gone back home for a while and had decided not to come forth for a time.

Every time Eugene spoke he could see his breath in the cold, cold air.

Everyone did the same thing, too. In fact, everyone's mouths seemed to look like kettles when the steam is coming out just as the water boils.

That had happened before, but it had never seemed to amount to so much at any other time.

Eugene even thought that it might freeze so hard that the warm breath coming out of people's mouths would form into little icicles and cakes of ice.

He thought of that a good deal. In fact, he went to bed thinking about it. Now, as a rule, Eugene seldom had dreams. He went to sleep so quickly that if he was speaking to anyone as he got into bed, as soon as he was lying down he was asleep.

Often and often he went to sleep right in the middle of sentences—sentences that were never finished.

But this night it was different. No sooner was Eugene asleep than he began to dream. But he did not know it was a dream. It was so real to him.

He was in a place very, very cold, and very close to the North pole.

But there were a good many people around, about as many people as lived

In the village which was Eugene's home.

In fact, he began recognizing the people from his own home and speaking to them.

He meant to ask them how they had all arrived 'way up here, but he didn't, as he knew they would only ask him the same question and it would have seemed so foolish not to have been able to answer it.

Yet he could not have answered it. The people all spoke to one another and as they did so the breath came out of their mouths and began freezing in long icicle shapes.

And then the words began to come out, and Eugene saw words and sentences such as, "My, isn't it cold," coming right out of a person's mouth, going up a little distance into the air and then freezing solid.

"This is Freeze Town," said another, "This place is now called by that name."

And all those words came forth and hung suspended in the air, frozen quite solid. They still showed what words they were, but they were of thick, clear ice.

Well, as the words began to freeze as people spoke, and as the air became thick with frozen words, a great blanket of snow came down from the sky with icicle hooks hanging down to which the words attached themselves.

The whole air became actually crowded with frozen words.

In fact, it became so crowded that the words found themselves having no place to go and they began planting themselves on the snow banks and all around the front doorsteps and in front yards and even in the street.

So thick with frozen words did Freeze Town become that the tallest man in the whole town had to come out and direct traffic so that the people could get about.

Even the town band, which played for indoor skating during the winter, came out, and as they did so, playing as they marched, the music notes froze, too, so that music notes were suspended from the snow blanket and lying about on the branches of trees.

There were whistling notes, also, made by boys who whistled well, and these froze, too.

There was no telling what would have happened next had it not been that Eugene's mother awoke him and said, "Time to get up and it is not so cold today as yesterday."

Not Her Daddy

Mary Lou recently visited the city for the first time. She was bewildered by the crowds, and was constantly watching for a familiar face.

One evening she was sitting in the hotel lobby with her mother.

Suddenly she remarked tonesomely: "Evwybody I see I Bink it's daddy, and evwybody ain't!"

Simply Had to Wait

Entering her sitting room one evening, a woman saw one of her curtains ablaze, it having come in contact with a gas jet.

She called to the cook for a pail of water, but the latter did not arrive on the scene until the man of the house had rushed in, torn down the curtain and stamped out the flame.

"Why didn't you hurry?" they asked the cook.

"Hurry?" she repeated. "Wasn't I hurryin' as fast as I could? I had hot water in the pail to throw out, and then get some cold water. You didn't want me to come in and throw hot water on the fire and make it worse, did you?"

My Husband Says

That every time a caller says, "What a handsome cat!" Tiddlywinks starts washing himself.

Mrs. Arch says that her Willie is just like that, too. When she asks him to recite one of his pieces for company he puts his thumb in his mouth and looks adorably pensive, but he is awfully clever, even if he does look like his father's side of the house.

My husband says they shave Willie's head so far in the back that it looks like a tack and he had rather have him put his thumb in his mouth than hear him expound an extract from the world's best literature.—L. E. S. in Kansas City Star.

Poor Old Dad

Jack—Father recently undertook to learn to drive the car. We all tried to dissuade him, but with characteristic fixity of purpose he adhered to his decision. And he has succeeded fairly well, although the trials of traffic have told on his nerves more or less. For instance, we had to take the alarm clock away from him. When it went off the other morning he thought it was a traffic signal sounding, and nearly kicked the foot off the bed trying to find the brake.—Yvonne.

Magnetism

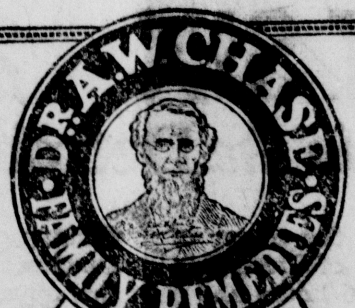

The bureau of standards says that magnetism is a condition and not a thing. When you stretch an elastic band its condition is changed, but you do not add anything to it. When released the elastic band returns to its former condition. The electric current in the winding of an electromagnet causes a change in condition of the space near it. When the current stops the space returns to its original condition. It is not proper, therefore, to say that the magnetism goes anywhere.

Rhine Valley in History

Originally the whole valley of the Rhine was occupied by Celtic tribes, but about the Fourth century B. C. the Teutons began to overrun the region. They were in turn succeeded by the Romans, who were again displaced by a new Teutonic immigration, and by the year 870 the river lay wholly within the German realm. For nearly 800 years it continued in this position, the frontier of Germany coinciding more or less with the line of the Rhine. The French then began to encroach and in 1801 the whole left bank of the Rhine was ceded to France. It was not until after the Franco-Prussian war (1870-71) that the Rhine again became Germany's river. The river has on the whole always been considered as a part of Germany.

Warlike English Queen

Matilda, wife of King Stephen of England, took the field in her husband's defense in the civil war that followed the Empress Matilda's invasion in 1139, and after Stephen's capture drove the empress out of London.

Scientific Advance

A Massachusetts scientist claims to have rediscovered the art, lost in the Fourteenth century, of making gold lighter in comparison to its bulk so it can be used to manufacture more jewelry.

State of Minnesota, County of Crow Wing.

In District Court, Fifteenth Judicial District.

In the Matter of the Petition in behalf of H. F. Michael, Company, a corporation, for a Dissolution of said Corporation.

To all Persons Interested in the above entitled Matter:

NOTICE IS HEREBY GIVEN: That H. F. Michael, A. B. Michael and G. A. Beale, all being stockholders of H. F. Michael, Company, a corporation, have made and caused to be filed with the Clerk of the above named court, their petition, praying for the judgment of said court dissolving the said corporation, and that a hearing will be had upon said petition before honorable W. S. McClenahan, one of the judges of said court, at his chambers in the Court House in the City of Brainerd, Crow Wing County, Minnesota, on the 22nd day of March, 1926, at 10 o'clock in the forenoon, at which time and place you are notified to present your objections, if any you have. Dated February 23rd, 1926.

WIELAND & SULLIVAN,
Attorneys for petitioners,
Brainerd, Minnesota.

New Method Quickly Banishes Heavy Coughs

Why be annoyed and weakened by persistent, strength-sapping coughing spells when you can, through a very simple treatment, quickly stop all irritation and very often banish the trouble entirely in 24 hours?

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. Thus, with the throat soothed and cleared, coughing stops quickly and you sleep all night undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

MAJOR J. F. HILL
ADDRESSES H. S.Noted Lecturer Tells of Life of the
Natives in Dark
Africa

Major John F. Hill, special lecturer for the Extension Division, University of Minnesota, gave a very fine address to high school students and faculty last Tuesday. His subject was that little-known land with its interesting native customs and interesting history—Africa. Major Hill is certainly capable of discussing Africa as he has spent many years of his life on that continent in close contact with the natives there.

He began his speech before his Brainerd audience with a resume of his early life in Africa when he was a member of the engineering staff of Cecil Rhodes in the survey of the Capetown to Cairo railway.

His description of the different tribes of African natives was especially interesting as their customs are so very queer and their language so very different from any we are familiar with. The African Bushmen, for example, are a race of men extremely low in the human race, who possess a vocabulary of forty-five words and who produce absolutely nothing, but rob other tribes for their subsistence. Another thing which is rather amusing to us is the African natives' belief in the witch doctor with his herbs, and his spells, and his magic. The speaker had himself been under a witch doctor's care during an illness and was able to tell a humorous incident of how he won his respect and commanded an awe by performing simple feats of "magic" such as lighting a match on his trousers!

Besides the many entertaining things the audience heard about African natives, Major Hill told a number of things of educational value which were equally entertaining. Something about which few of us had heard was the discovery of diamonds around Kimberley, of the vast number of Europeans who went to Africa at that time, and of the way in which diamonds are mined.

The talk was certainly a most instructive one and was one which was keenly enjoyed by everyone in the audience—teachers, pupils and parents alike. Anyone who heard Major Hill will not miss any opportunity he may have of listening to one of his addresses in the future.

The Turmoil

Silence reigned. Suddenly strange sounds ensued from the front of the room. There they came again. Regular, in time, and deep they sounded, as though coming from some part of the basement. Confusion now took the place of silence. Every one had his opinion of what it might be. Books closed. All held their breath and stopped, looked, and listened. Was it the rumbling of an earthquake? Was the boiler in the process of exploding? Would every one be blown up? The rumbling and sputtering continued. All were anxious. Finally, along came Miss O'Brien disturbed by the strange sounds. Straight to the front of the room she walked. Ah! How brave! What do we hear? "Olaf, I am sorry to disturb you, but if you must sleep, please do not share as it bothers other people and takes their minds from their work." What a relief! Only Olaf Peterson taking his daily nap. Everyone looked relieved and silence reigned once more.

Geometry Tragedy

The room was very quiet. Not a sound was heard but the footsteps. Everyone listened intently; it was so quiet, a pin could have been heard dropping. As it was, the clock was heard, measuring off its slow tick-tock. The person whose footsteps were heard, slowly walked to the front of the room, picked up a stick, and started to wave it and make queer sounds. At first no one knew what the person was saying, but finally we found out that it was Irene Molstad reciting a theorem in our geometry class.

Teachers tall and teachers taller, teachers small and teachers smaller
Teachers fat and thick, and teachers thin and lean;

Teachers young, and sweet and pretty, teachers grim and old and grumpy.
With a lot of other teachers in between.

Telepathy

Bob: "I can understand how they find new plants, but I can't understand how they get to know their names."

Vocational Guidance

Does "just about" suit you or do you prefer the exactness of geometry and debating? Mark out that which doesn't apply to U.

Geometry, yeah? Does a guy appreciate the humor of the situation when after dining at a well known den of thieves the waiter slides up with the check which from left to right reads \$4.10 and his total assets amount to \$3.50 after the last of ten check-ups?

And as for debating—say you haven't been adding to the general atmosphere of the Public Library during the last week, have you? Well you missed a perfect demonstration of why debating should be listed as exhibit one in the Child Labor Law.

Guys running around with books under either arm, fountain pen in their teeth, ink-spots on their hands, and cuffs covered with tabulations, pleading appealingly to anyone and everyone as to whether it was John Paul Jones or Borah who stated that more than one half of one per cent of the school children of America don't know that there is a law against something or other as a profession.

People feverishly copying the contents of a whole book, people copying two lines, people reciting under their breath, people standing on chairs and reciting aloud. Conversations about topics, about teachers, about nothing at all—chatter of all sorts mixed and mingled so as to give a general impression of busy industry.

"99 44-100 per cent pure English is the nearest to perfect grammar spoken by—"

"—morons of the second degree."

"Got your introduction?"

"Say, quit writing on my paper!"

"Patent medicines are full of alcohol."

"Patrick used perfect English when after his first speech he was asked—"

"Hey, give me that book next!"

"—where he learned the use of—"

"—tobacco is a dirty weed."

"I like it."

"He replied—"

"Where do you get that stuff?"

"I haven't half my reasons ready. What'll I do?"

"Lay down, you're all wet!"

"You're a funny kid, aren't yuh?"

"—but \$9 per cent of the illiterates are—"

"—school teachers being unable to—"

"Shut up!"

"President Coolidge in his last speech over the radio said—"

"I'm Red Hot Henry Brown!"

And from this mess of books, fact ink, and all humor they emerge with notes reading something like the above. It is, I haven't been to the library for six months but I expect it was as little like my description as could possibly be but this considering that it was enlarged from a sentence like this: "Library's having quite a run from kids getting stuff for debating in English III. Write it up." And I did. Does your Vocational Guidance list read like this? Does "just about suit you?" You must take English III.

On Overshoes

In the first cold blasts of winter, women quickly turn to thoughts of overshoes. Having decided that pair must be purchased, the great question of whether to "buckle" or "zip" arises. Some prefer buckles because they can so conveniently be left open to "flop." Others prefer the "zipper" and say that they, too, can be made to "flop," although the pleasing "jingle," that accompanies the flopping buckles, is absent. The momentous question having been settled, milady settles down to a winter of fretting. But what is the cause of this fretting? True, the overshoes are warm, but in no sense of the word can they be called beautiful, or said to add to the appearance. They are clumsy, and a bother. Every time they are worn with light stockings, the said stockings proclaim to the world, for the rest of the day, that their owner wears overshoes. What then is the attraction, or what redeeming features keep overshoes in use when there are other means of keeping out the cold, such as shoes or spats? To that query we can only reply with the age old answer, "Because they are wearing them."

ALUMNI

Rose Hogan '25 spent the week end with her parents. She is attending the Villa at Duluth.

"Chucks" Hoffman '24 who is attending the University of Minnesota spent Sunday and Monday at his home.

Carl Anderson who is attending the University of Minnesota has recovered from an operation for appendicitis and will be able to leave the hospital Tuesday.

ATHLETICS

B. H. S. ENDS SEASON
WITH VICTORY

The B. H. S. quint closed its season with a decisive win over Aitkin high school, 27 to 8. At no time during the game was the outcome in doubt, Brainerd taking an early lead soon after the tip-off. The Brainerd team now has a percentage of .500, having lost two games to Little Falls, two games to Crosby-Ironton and one to Staples, while they have won two games from Wadena, two from Pine River and one from Aitkin.

As is the usual case, the Brainerd team had many fouls called on them. Captain Tribur having three called on him in the first quarter, although he played a very good game. Brainerd was passing much better than in previous games but was a little slower in getting down the floor.

In the first half Brainerd scored five field goals and held Aitkin to four free throws. In the second half Brainerd speeded up a little bit, but as a result the defense was not so good, allowing Aitkin many short shots, but they missed them all. At the end of the third quarter the score was 18 to 6. In the last part of the game Fitzharris was sent in and he added a net of two baskets. In the last period Aitkin caged one long shot to bring their total to eight points. However, when the final whistle blew the score was 27 to 8, with Brainerd upholding the long side of the score board.

Mr. Smith of Bemidji refereed the game, calling the fouls closely, and still making the game fast. Mr. Smith will referee all games at the tournament at Crosby, next Friday and Saturday, March 5 and 6.

The following is a summary of the game last Friday:

Brainerd	pos.	Aitkin
Marshall	rf.	Olson
Avery	lf.	Sanford
Whitlock	c.	Olts
Lowe	rg.	MacGregor
Tribur	lg.	W. Newstrom

Substitutes—Fitzharris for Avery, Orth for Whitlock, Lawrenz for Tribur, A. Newstrom for Olts, Olts for Sanford, Morris for W. Newstrom.

Field goals—Marshall 8, Avery 1, Fitzharris 2, Orth 1, Sanford 1.

Free throws—Marshall 1 in 3; Orth, 1 in 2; Lawrenz, 1 in 1; Olson, 2 in 4; Sanford, 0 in 2; Olts, 1 in 2; A. Newstrom, 1 in 2; MacGregor, 2 in 3.

Personal fouls—Tribur, 3; Lowe, 1; Orth, 1; Whitlock, 2; Fitzharris, 1; Marshall, 1; Olson, 1; Olts, 1; W. Newstrom, 2.

Referee—Smith, Bemidji.

Crosby! Let's Go!

The basketball tournament for this district will be held the coming Friday and Saturday at Crosby high school gym. The local team has won half their games this year and has a good chance to walk off with the honors, so, basketball fans, if you want Brainerd to win, go to Crosby this Friday and Saturday and support the team. Motley will be first, at 3 P. M. Friday.

Motley Girls Defeated 23-11

While the boys were playing Aitkin on the home floor, the girls played and defeated Motley on her floor. In this game there was more competition than in any other played so far this season. At the end of the first half the score was 11 to 8 in Brainerd's favor. The girls knew then that there would have to be less loafing and more work if the game was to be theirs. The team got down to business then and more than doubled their score and held Motley to only three more points.

Gladys Reuter left her guard position and entered the basket-shooting ranks. She and Helen Beggs shared the honors in making baskets. Gladys made five field goals and one free throw while Helen made five field goals. Miriam Michael added a field goal to this. The centers played a good game, outjumping their opponents almost every time. The guards played a fine defense game.

Brainerd's line-up was:
Forwards—G. Reuter and Helen Beggs.

Jumping Center—I. Trask.
Running Center—G. Alzant.
Guards—A. Storm and K. Nolan.

Better'n 'At

The plant superintendent was quizzing an applicant for a job in the plant. "The man who drops his tools, and hikes the instant the whistle blows, doesn't last long with us," he remarked.

"That's right, sir, I always have my tools put away and am waiting a good five minutes before the whistle blows," returned the applicant.

SEMPER PARATUS CLUB
GIVES SUCCESSFUL PLAY

The Semper Paratus debate club scored a second success last night with the play, "Scenes in the Union Depot." Although the crowd was not very large, all those present pronounced it a clever entertainment.

Bob White announced the different numbers on the program, the first being two piano trios played by Helen Lammon, Marjorie Cunningham and Jean Rowley which merited an appreciable amount of applause. Following this was a reading by Marguerite O'Brien, accompanied by Kathleen O'Brien at the piano. This reading—"A Symphony in Music"—greatly pleased the audience.

For the "scenes proper" an effective stage setting resembling the interior of a small town depot was used. Entering first was a group of four college girls—Margaret Armstrong, Edna Turner, Marjorie Oberst and Marion Linneman—who acted in true "flapper" style, telling jokes and strutting a ukelele. In the depot at the time was a Bohemian woman enveloped in an enormous shawl, two dilapidated tramps, a mother and her sleepy son, Doris Storm was the Bohemian woman, Ray Nicholson, Norman Viken the tramps, Sylvia Erickson the mother, and Toivo Bikki her son.

After Henry Nolan as the depot master had called loudly the stations on train number 10, track number 4, the depot was emptied of its occupants and new arrivals entered. Helen Paine as Mrs. Snyder, who was at the depot with her daughter Hazel Converse, to meet an uncle, Mark Converse, furnished the audience with a good many hearty laughs. Helen was having a sad time trying to remember the whereabouts of her umbrella which she had tied about her waist so that she wouldn't lose it! Following the departure of the above mentioned three, Mr. and Mrs. Josiah Potter—Frank Bane and Marjorie Cunningham—who have been to the city, tell Mrs. Larkin—Margaret Jones—the exciting things which happened to them. Kathleen O'Brien arrives in a great hurry and leaves her dog "Woof" in the arms of the protesting Ernest Lively who in turn passes poor "Woof" on to Miss Piper, a spinster with a cat. Miss Piper was played by Alta Storm. During this and following scenes Orval Herington as the bootblack gets in some clever incidents. Victor Burgeoise disguised as an Italian, played a much enjoyed violin number while his partner, James O'Brien, "passed around the hat." Raymond Nicholson as the harassed widower, Mr. Armstrong, with four quarrelsome, bothersome children makes his appearance. Then follows his very romantic proposal to Miss Piper which is frequently interrupted by the actions of Esther Gallagher, Violet Hoston, Howard Gile and Guy Hawkins, his children.

Bertina Cain as Mrs. Hummer makes a terrible fuss when she finds she has missed her train. She scolds Depot Master Henry Nolan because he "let the train go too soon," but he remains unperturbed, as depot masters do, throughout her tirade. Her sending of the telegram was very funny and greatly enjoyed. Hugh Patterson was the telegraph operator, and John Leaf was in charge of the lunch stand.

John Fischer and Mercedes Johnson as Mr. and Mrs. Martindale played their parts well; Mr. Martindale being an obliging, patient husband while Mrs. Martindale was an exacting hard-to-please wife.

Mrs. Larkin is the only one who remains in the depot when the school girls Trix, Marguerite O'Brien; Dot, Dana Peterson; and Bess, Bernice Samuelson, have their little tilt with the dude, Verne McNamara, whom they style "Mama's Boy" and Auntie's Pet."

Bob White and Lucille Cardle as the newly-weds who were just starting on their "wedding" tower, introduce a new element of humor into the situation. The bridal couple feels sure that they have evaded the wedding party, but while they are contentedly munching peanuts, this party, consisting of Dale Saunders, Henry Viken, Ferné Lowe, and Jean Rowley, enter and as they are leaving, they throw quantities of rice at the bashful groom and blushing bride. They promise Margaret Jones, as Mrs. Larkin, that they will send her a copy of the "Brainerd News" telling all about the wedding 'n everything."

After the train for New York has been called and has puffed away, Norman Viken as the father brings his two children Cassy and Julie—Helen Marie Stadtbauer and Allan Johnson—who are leaving for a visit to a neighboring town. They make friends with Mrs. Larkin telling her about their family, Sunday school teacher and many other important details.

Then the train is heard, very real-

SENIOR SLEIGHRIDE
SATURDAY EVENINGTURNS OUT TO BE HIKING
PARTY AS WELL AS
SLEIGH RIDE

Just as the moon was rising Saturday evening, two sleighs of merry seniors was seen leaving the high school headed for the Jones' cottage on Gull lake. The first three miles were grand and glorious; the weather was mild, the moon just above the horizon and the merry-makers in the highest key note of pep. Snow baths were numerous and snow showers even more so. One would never know when something cold would trickle down his spine and make him dance some unintentional steps of the Charleston, or remain perfectly still until some good hearted person would reach down this back and draw forth a hand full of snow or ice.

What's the matter now? Walk? What for? I thought this was a sleigh ride! Cries such as these were heard when the horses stopped and everybody was informed the highway was sandy and minus the substance termed snow.

The road was fine for walking and many forgot the sleighs and decided they were on a hike. Occasionally somebody would complain of being tired and inquired where a taxi could be reached. But this was hopeless as the horses would have to draw too heavy a load. Sparks glistered under the runners of the sleigh, and suggestions were made how to utilize the heat given off to warm the feet of those who were unfortunate at having cold wet feet.

Turning from the highway toward Gull lake was a fine road again and everybody piled on the sleighs cuddling close to one another to keep warm. The chief entertainment was watching into the deep dark forest for the sight of wolves, especially when going by the spruce swamp. Many songs were sung, stories and experiences related, ending with a wise remark from some one to put the crowd into an hysterical fit of laughter.

A farm yard was reached where the horses were given care and the group was informed that walking was again necessary. It was quite different now, as the snow was knee deep and gently slid down one's overshoes and was transformed into a solution giving the ankles a stimulation to ankle along faster.

In time everybody reached the cottage where the real fun began. The evening was enjoyably spent to suit the various interests of the crowd.

The delicious wholesome lunch served about 11 o'clock consisting of hot creamed potatoes, meat loaf, parkerhouse rolls, pickles, doughnuts, and coffee. The quantity of food devoured proved many had left home without eating their dinner.

A different road was taken to come home, but proved a failure as it led to the highway again near the white schoolhouse, five miles from town. The ride home took place at a bewitching hour, a little after midnight. A cloud from the east extended toward the moon like a hand of a clock indicating that the hour was now beginning to be early. The party scattered gradually when they reached town, everybody satisfied with the wonderful time they had had.

THE BURGER COLUMN

*Dear Ham and Lim:
I have a horse and every evening when I try to ride him he falls under my weight. I have not the slightest idea what's the matter. What shall I do?

Yours truly,
AGGRA VAYTON.
Answer: It is your weight that makes him fall. When you ride him take a lantern along and make it lighter on the horse.

*Dear Ham and Lim:
One day, as I was working on a roof I fell off. When I awoke they said I had come down with the seven years itch, F'eyvin's sake, what shall I do?

Yours truly,
I. C. HOWE.
Answer: Go down to the Office

istic "noises" being made by Ole Weston and Clarence Sundquist. The depot is emptied and silence reigns, until four college boys enter and begin practicing songs they are to sing. This college quartette, composed of Calvin Orth, Russel Putz, Ernest Lively and Stewart Gile, sang a group of songs entertaining to the audience.

The program closed with a piano number by Viola McKay. Altogether it was a satisfactory performance and much credit is due Miss Oerting, Miss Lohr and Miss Rickard.

Supply and get about 25 cents worth of scratch paper.

Can you tell me why—
Jim isn't a sedan instead of a Koop?
Wine isn't a group of houses instead of Barnes?
Evelyn isn't clever instead of Weiss?
Phoebe isn't Tom instead of Jack?
Katherine isn't a little dumb in place of Albright?
Fern isn't high instead of Lowe?
Caroline isn't forgery, in place of Graff?
John isn't a trapper instead of a Fisher?
Helen works instead of Beggs?
Earnest doesn't step out when he's Lively?
Lorna is a valet instead of a Stuard?
Merlyn isn't kid instead of Pat-ton?
Don isn't a general instead of a Marshall?
Evelyn isn't a vestibule instead of a Hall?
Thelma isn't some rose garden instead of Bowers?

Josephine isn't a soda instead of a Graham—cracker?

Edna isn't a Shean instead of Gallagher?
Kathleen isn't late in place of Early?

This column doesn't go to Fergus?
For Rent: Two nice upstairs rooms with double beds. Hot and cold water in each.

Dear Ham and Lim:
I got Argentina on my radio last What do you think of that?
Ans: We don't Bolivia.
Radio Bug.

Miss O'Brien: "Why didn't you report last night?"
Alfred E.: "I had to lace my shoes."

Miss O'Brien: "How do the rest get down in time then?"
Alfred E.: "My feet are bigger."

Teacher: "Alfred, can you tell the difference between ammonia and pneumonia?"

A. E.: "One comes in bottles and the other in chests."

JUNIOR DEPARTMENT STORES

BIG LEAGUES RESENT ANY HOLDOUT GAME

BALLPLAYERS BALKED IN MOVE FOR MORE PAY

INDEPENDENT ATTITUDE OF
MAGNATES MAY BE PRIVATE
UNDERSTANDING

INTEND TO HOLD GROUND AND
STICK TO THEIR OWN
TERMS

By HENRY L. FARRELL
(United Press Staff Correspondent)
New York, March 2.—Ball players using the old holdout game to get more pay out of their employers have received scant consideration from the major league club owners this season.

The independent attitude of the magnates may be the result of a private understanding to hold ground and stick to their own terms.

The action taken by the Brooklyn club in the case of Zack Wheat was one of the most conspicuous examples. Wheat was sort of assistant manager of the club and is one of the best players. He held out for a two year contract at \$16,000 a year. The club told him he could not have a two year contract and if he did not sign within 24 hours the amount would be decreased to \$14,000. Wheat signed.

Frank Frisch, captain and star second baseman for the Giants wanted an increase in pay but he did not get it. He did not hold out exactly but he tarried some in signing the papers.

The other holdouts among the Giant players have been told that they can take the club's terms or leave them. Zeke Barnes was threatened with a railroad ticket to another club when he demanded more money and he signed.

Jock Scott, whose work did not please the Giant manager last season, has been told to sign up or go back to the farm. He probably will sign.

Erin Ward, second baseman of the New York Yankees, has been warned that his position at any price is not secure with the club and that he will be traded or allowed to stay at home if he does not like it.

Wally Pipp, former first baseman of the Yankees, who was sold to the Cincinnati Reds during the winter, has threatened to retire if he does not get part of his purchase price from the Yankees. It was understood generally that Pipp's transfer cost the Reds a trifle more than the waiver price of \$4,000 but Pipp contends about \$20,000 was paid for his contract.

The Reds are in a predicament now for a first baseman as Walter Holke has been released and the club has no dependable player for the bag if Pipp carried out his threat. It is unlikely that the Yankees will share the purchase price and the Reds may have to kick in to soothe his feelings.

Bill Terry and George Kelly have not reported to McGraw and the Giants are also in possession of only a rookie first baseman.

United States Patents

Protection under a United States patent extends throughout continental United States, Alaska, Hawaii, the Virgin Isles, Guam and the Canal zone, and upon compliance with certain regulations, to Porto Rico and the Philippine islands. Protection under a British patent extends only throughout the United Kingdom and the Isle of Man. British colonies and dependencies, respectively, have their own patent systems. Practically every civilized country has such a system excepting China; in the case of the latter, however, provision exists for the registration of patents granted in other countries.

12,000 Laws Passed

State legislatures during their most recent sessions passed 12,000 laws of all kinds, despite the protests against so much legislation that are constantly being filed by civic bodies. North Carolina alone passed 1,173 new laws; New York, 686; Tennessee, 812, and Indiana 218. Many of the laws, of course, are regulations governing the routine administering of the states, but there are many limiting and prescribing human conduct.

Deadly Golf Stroke

Playing with a pupil, James Bamford, professional of the Chester Curzon park golf links, England, made a long drive from the seventh tee. After his ball had traveled about seventy-five yards it killed a bird known as a water wagtail. Its speed apparently unlesioned, the ball continued on and 50 yards further it struck and killed a second wagtail. This time the ball dropped to the earth with its victim.

Why "Photographer"?

It's perfectly all right for a photographer to "shoot" you before sunrise.

DIEGEL, CANADIAN OPEN CHAMPION, LEADS IN TOURNEY

Sebring, Fla., March 2.—(UP)—Leo Diegel, Canadian open champion, was leading as the second day's round of 36 holes in the south Florida open golf tournament was started here today.

He had chalked up a score of 137 for the first 36 holes yesterday. Another close bidder for the \$3,500 purse was Gene Sarazen with 138.

BERESFORD LEADS RAINBOWS WITH 78 TOTAL POINTS

LANKY CENTER MADE 32 FIELD
GOALS, 14 FREE THROWS
THIS SEASON

ZIEBEL NEXT WITH 51 POINTS,
HEIKKINEN THIRD
WITH 31

Beresford, lanky center of the Rainbows basketball team, leads his teammates for the season of 1925-26 with a total of 78 points, having counted 32 times from the field, and 14 times from the free throw line. He averaged almost 9 points per game for the nine games in which he played.

Ziebell follows next with 51 points made on 23 field goals and 5 free throws. He made his points in 14 games, an average of about 3½ per game. Heikkinen, playing part of the time at forward and part of the time at guard, scored 31 points for third place, while Hagberg is fourth with 26.

The best average per game was made by Hanson, who played in one game and made 11 points. Beresford is next, with almost 9 points average, while Ericsson is third with 8 points average for two games.

Ericsson, playing in two games, and Bollens, playing in 4, did not have a single personal foul called against them.

GEO. W. HOTCHKISS, LAST OF FORTY NINERS CALLED TO REWARD

Evanston, Ill., March 2.—(UP)—The color and dash of the California gold rush of '49 now belongs to the cold pages of history. The last of the "Forty Niners" is dead.

George W. Hotchkiss, who made his fortune with pick and pan in the first great days of the gold rush died at his home in Evanston last night and at his funeral tomorrow there will be none of his comrades present.

Hotchkiss was wealthy at death, having invested his California gold dust in a profitable lumber business. He likewise had profited by lumber trade journals.

But through his success he never forgot the glamor of that 154 day dash to California back in 1849 and only a few years ago he called a meeting of all the original forty niners.

There were 16 veterans who gathered at the palatial Hotchkiss home. After dining the veterans agreed that one of their number would deliver a brief eulogy at each successive grave. And so it has been.

But Hotchkiss, originator of the idea, must go without that brief eulogy from an early day pal as he has outlived the rest of the group.

MARSHALL PLEADS NOT GUILTY TO MURDER CHARGE

Philadelphia, March 2.—(UP)—David L. Marshall, chiropractor, charged with the killing of Anna May Dietrich, milliner, whose body he mutilated, was today arraigned before Judge McDevitt in quarter sessions court, and pleaded not guilty to the charges of murder, voluntary and involuntary manslaughter. The arraignment is the last legal step preparatory to Marshall's trial on next Monday morning in the same court.

Sad All Around

It is a sad thing when men have neither wit to speak well nor judgment to hold their tongues.—La Bruyere.

Boundaries Well Defined

Only two states of the Union—Colorado and Wyoming—have unbroken straight-line boundaries on all sides.

Helen Wills in Action During Tennis Match She Lost to Mlle. Lenglen After Thrilling Battle

Miss Wills, American champion, is shown in action on the courts of the Carlton Club at Cannes during the hotly contested match she lost to Suzanne Lenglen, European champion. The American girl put up a hard fight, especially in the second set, the score being 6-2, 2-6.

Germany Sends Two of Her Best Swimmers, One World's Record Holder, To Meet U. S. Champions

Eric Rademacher (left) and Gustave E. K. Froehlich were photographed when they arrived in New York aboard the liner Deutschland. Froehlich is Germany's backstroke champion and Rademacher recently established a new world's record for the breast stroke when he swam 200 meters in 2 minutes 31 seconds. These German aquatic stars will meet the best American swimmers.

Natural Distinction

Though a great many animals have claws, only human beings and certain apes have flat nails on fingers and toes.

One of the Mysteries

Why do so many strangers think the real sights of a city those that regular residents care least to see?—Detroit News.

The Modern Milkmaid

No longer is the milkmaid permitted to be the pretty but dumb individual described in romantic verse. She must be at least a graduate in bacteriology.

Sun Dial and Telescope

A small telescope has been added to a sun dial intended for residence grounds.

CRITICIZING FRENCH TENNIS OFFICIALS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, March 2.—Some complaint has been made by correspondents that the writer, among others, was unnecessarily severe in criticizing French tennis officials for permitting the flagrant commercialization of the Riviera tournaments.

The condition that almost caused Helen Wills, the American champion, to withdraw from the recent tournaments at the Carlton club in Cannes are so fresh in mind that they need no elaboration.

Miss Wills, repeating briefly, became so upset over the activities of the gamblers and the open exploitation of her name that she would have withdrawn if it would not have looked as if she were retiring through fear of Mlle. Lenglen, the French tennis queen.

Why criticize the French people for betting on the outcome of a Wills-Lenglen match, it has been asked. Why blame French officials for disposing of the motion picture rights for \$200,000, when the same things are done in this country?

Why?—Because the same things are not done in this country.

Here's the idea and the reason for severe criticism:

Supposing that Mlle. Lenglen and Miss Wills were to meet in the Forest Hills stadium.

The Forest Hills stadium is the property of the West Side Tennis club, a club which is directly under the supervision of the United States Lawn Tennis association.

Supposing that John Smith or Bill Green or Sol Bloom or Mike Casey went to Louis Carruthers, president of the West Side Tennis club and put up this proposition:

"We'll rent the stadium from you for \$250,000. That's plenty of dough for a guarantee. We'll handle the tickets and pay all the expenses and you can cash in big on the restaurant business your club will get from the crowds. We'll give you \$200,000 for the exclusive picture rights. I'm not going to take the pictures but I'm going to soak everyone \$25,000 who wants to take pictures."

Do you think for a minute that Carruthers, the West Side Tennis club or the United States Lawn Tennis association would entertain such propositions for a fraction of a second?

You know beyond all doubt they wouldn't.

Yes, they do gamble on big tennis matches in this country. Thousands of dollars were wagered in Wall Street before the Carlton club finals but they were largely "gentlemen bets."

It has never been of record, however, that taxi drivers in New York, bell hops and doormen around the hotels and news butchers on the streets solicited bets on any tennis match or on any other big sport event.

But they did that in Paris and it was quite obvious that the solicitors were merely agents as they certainly could not have had personal funds of the amount they offered.

3 DOGS ENTERED IN FIRST LEGION DOG DERBY SAT.

LOYDE COYNE, ALVIN FOX AND
FRANCIS McCULLOCH
ENTERED

KIDS ARE URGED TO ENTER
THEIR DOGS NOW FOR
THIS BIG EVENT

Come on! You fellows! Where are your dogs for the Dog Derby? Get your name in right away. Phone it or send it to The Dispatch office NOW. Do you mean that you'll let three fellows run off with all the prizes? That's how many are in the race now, just three.

Think of it! Three fellows in a town of a thousand kids! At least there must be four, for there are going to be four races. Now snap out of it and get your entry in right away.

Loyde Coyne, 520 Vine Street, had the right idea. He sent in his entry as soon as the first announcement was made, and then started in to train for the race. He's on the job, and will bear watching in the big derby Saturday.

Alvin Fox was next, coming in Saturday to put up the name of his full blooded water spaniel, "Brownie." Alvin is 12 years old and knows that he has a dog that's as good as any in town.

Last night Francis McCulloch came in, and submitted the name of "Bruce," his Shepherd dog, for the consideration of the city and envious dog owners. "Bruce" is a mighty canine who is ready to give any dog in town a race for honors. Bruce has been trained, and like the Alaskan sledge dogs, responds to "gee" and "haw."

Now listen, you fellows from North, Northeast and Southeast. Do you realize that so far you haven't a single dog in the race? One is from West Brainerd, and two from the South side. Don't let these fellows take the high honors without giving them a run for it. Let's get a little rivalry into this.

And say, you know about the prizes. Andy Gieriet is lining up a fine bunch of prizes. And the sheriff's office is planning to get out its full line of deputies to help the police make the old folks give the right of way to you kids. Now, with all this, don't disappoint yourself and everybody. Get your dog in the race.

PURDUE MOVES INTO 1ST PLACE

DEFEATS ILLINOIS 28 TO 23, IN
BIG TEN BASKET-
BALL

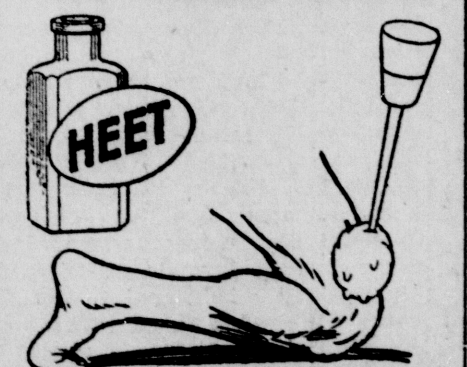

LaFayette, Ind., March 2.—(UP)—Purdue University moved into first place in the Big Ten basketball race by defeating Illinois 28 to 23. The boiler-makers have won seven and lost four as compared with Illinois' six and four.

Leading at the half, 17 to 9, Purdue looked an apparently easy winner, but Lipe and Doolen of Illinois started a rally during the last five minutes that seriously endangered the boiler-maker lead.

Wheeler of Purdue carried off high scoring honors with 12 points.

ACHING JOINTS, RHEUMATISM

"Heet" Relieves Instantly

With applicator attached to cork, just brush "Heet" over the pain area, whether in knees, feet, legs, hands, shoulders, back, neck or body. Instantly, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of any aching or swollen joint, muscle or neuritis-ridden nerve. Besides, "Heet" scatters the congestion and establishes a cure.

"Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or analgesics. "Heet" is a clean, pleasant liquid; doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

After you have stopped at the Milliner's----

bring your wife to the John M. Bye Clothing Co.'s store for the Easter outfit that you will need if you are going to add rather than subtract from the picture.

Solomon, in all his glory, never had one wife who could accompany him to any one store to see such Easter raiment.

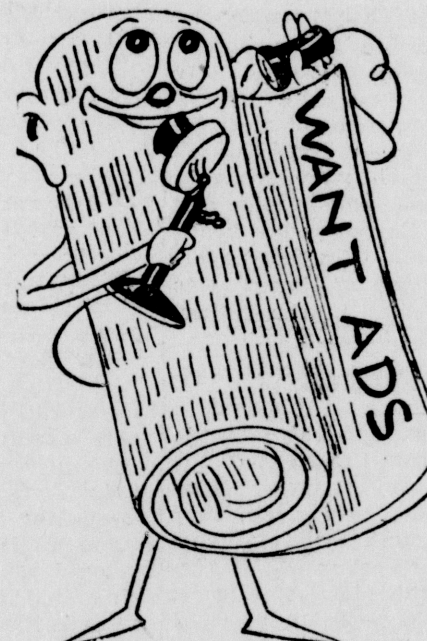

Easter is Early—you haven't much time but you'll both have the time of your life here this week!

Kuppenheimer and Kirschbaum Easter Suits and Top Coats.

Kirschbaum\$25.00 to \$37.50
Kuppenheimer\$50.00
Schoble Hats\$5, \$6 to \$8

FORMER BRAINERD RESIDENT DIED

Henry Auclair Passed Away at His Home in Waterman, Wash., March 1

LIVED HERE 40 YEARS

Conducted Mail Coach Between Brainerd And Cross Lake, Later Was Hotel Man Here

Henry Auclair, an old Brainerd resident, passed away at his home in Waterman, Wash., on March 1, death coming as a result of a stroke suffered some time ago.

Mr. Auclair formerly conducted a mail coach between Brainerd and Cross Lake, and later had a hotel in Brainerd. He lived here for 40 years, and about 20 years ago moved to Kalispell, Mont., where he resided until a year ago, when he moved to Waterman, Wash. He was well known to many friends of this city, who will be grieved to hear of his death.

He leaves a wife, one son, and three daughters. The son, Henry, lives at Kalispell, Mont. The daughters surviving him are Mrs. William Schib, of Brainerd; Mrs. Neo Nelson, of Waterman, Wash.; and Mrs. Clayton Coram, of Tacoma, Wash. One other daughter, Mrs. J. A. Murphy, of Brainerd, preceded him in death last August. Eleven grandchildren also are left to mourn his loss.

Mr. Auclair was about 75 years of age at the time of his death. He was born in Montreal, Canada.

FIRE IN NORTHEAST

Stovepipe Through Ceiling of Kitchen at 1204 14th Ave. Sets Fire to Second Floor

A stove pipe through the ceiling of the kitchen at 1204 14th Ave. N. E., set fire to the second floor of the dwelling last evening, and the fire department made a run to the place, facing a brisk cold wind all the way. Little damage was done, the fire being well in hand by the time the department reached the place. Mr. Robel occupies the house.

Lekstrom-Carlson

Axel W. M. Lekstrom and Miss Ingeborg K. Carlson, both of this county, were united in marriage yesterday at the parsonage of the Swedish Bethany church, Rev. P. G. Falkquist officiating.

Witnesses at the pleasing ceremony were Mrs. Lizzie Fitch Padgett and Mrs. P. G. Falkquist. A touch of romance was added as the bride just came from Sweden last Saturday. The bridegroom has a lucrative position as engineer at the Armory mine. They will reside at Ironton where he has provided a cozy little home.

Methodist Ladies' Aid

The Methodist ladies' aid will meet at 2:30 p. m. Wednesday, March 3, in the assembly room of the church. The hostesses are Mrs. Asher Taylor and Mrs. G. E. Lammon.

A DULUTH WHOLESALE HOUSE

Dispatch Writer Visits Rust Parker Plant in Company With Local Salesman, H. W. Wood

In a recent visit at Duluth the writer had the pleasure of being taken to the huge business concern of Rust Parker company and guided by H. W. Wood, salesman for Brainerd territory, he gained a view of the seven story building located on Lake avenue. The seventh floor of this wholesale grocery house is the coffee department with storage room for 3,000 bags. Each sack weighs on an average 130 pounds, so one gains an idea of the solidity of concrete construction which provides for such heavy tonnage. Coffee is roasted on this floor.

On the sixth floor one sees the machinery used for grinding steel cut and electric cut coffee. On the fifth floor the coffee is packed. On this floor there is also a large cooler for fruits, etc. The coffee was an interesting topic and in company with Mr. Wood the writer followed the bean through three floors and then across the street to Miller's cafeteria where it is served daily.

The fourth floor has a sugar mill, canned vegetables, soap and other goods. The third floor is the packing room, cookie and candy department, cigar room, and the administrative section of the business.

The second floor west is the fish department where all kinds of salt and spiced fish are packed. Huge hogsheads bring in fish from as distant points as Alaska. The second floor east is the call department.

The first floor west is the city shipping department and first floor east the country department. Sidetracks for loading and unloading cars run directly into the building. The company's own dockage provides adequate space for shipping or unloading lake freight.

Frank Parker, president, and Joseph Parker, vice president and general manager, are comparatively young men who in the span of a few years have built up a large wholesale grocery business serving Minnesota, Michigan, Wisconsin, the Dakotas, Montana, etc.

8 TAKE FORESTRY TESTS

Conducted at Local Forestry Office Monday Morning, Under E. H. Rhodes

Eight men took the examination for patrolman of the state forest department yesterday at the local office. The examination was conducted by E. H. Rhodes, of the local office.

Those taking the test were Cecil C. Carlton, of Emily; Ira Coddington, of Motley; Bert A. Mahlum, of Brainerd; John W. Grover, of Pine River; Lewis E. Schultze, of Jenkins; George E. Ericson, of Brainerd; Oscar M. Boeder, of Flak and Charles Andrews, of Crosby.

The papers are being checked here and will then be sent to the St. Paul office for final ratings.

SEA SCOUTS GET NAVAL CUTTER

32 Foot Life Boat Brought to Brainerd For Use of Scouts on Cruises

CAPACITY FOR 40 PEOPLE

Scouts Will Rig It Up For Use During Summer, Now at Linn Park Pavilion

The Brainerd troop of Sea Scouts came into an inheritance during the last week of a 32 foot naval cutter, which was brought over from Crosby and will be rigged out for cruising during the summer.

Six men from Brainerd went over to the range town with one of the highway trucks and hauled the boat over on bob sleds. Homer Ayler, driver of the truck, and Albert Veillette, also of the highway department, deserve much praise for their work in bringing the boat here. Besides these two, the others in the party were Carl J. Wright, Frank Lorey, Floyd Nash, and Perry Newton.

The riggings of the boat were loaded into the truck, and the bobs, with boat securely attached, were dragged behind. Included in the riggings are masts, 2 knot boards, a large anchor, ropes, 28 ash oars, 14 feet long, a sail, and various other items.

The boat is really an ocean liner, life boat, and carries a government metal plate stating that the capacity of the boat is 40 men. Steel air tanks at sides, bow and stern, make the boat absolutely safe for use. There is plenty of room for tents, and provisions. The gunwale of the boat is of oak.

The boat was brought to Crosby in 1914, when a Naval Militia was organized there. This unit disbanded after a year of activity, the members going into the United States forces during the war. The boat has been lying out in the open, near the Crosby armory, for several years, and is now brought to Brainerd for the Sea Scouts, loaned by the government.

The Sea Scouts plan to paint the boat, varnish where needed, and put the boat in ship shape condition, and use it this summer for cruises. The troop now has 11 members, their scoutmaster being Anson E. Hagel.

Presbyterian Ladies Aid

The Presbyterian ladies aid will meet Wednesday afternoon, March 3, at the home of Mrs. A. Purdy, 793 Oak street. The entertaining ladies are Mrs. C. B. Peterson, Mrs. Ray Paine, Mrs. T. Schaefer, Mrs. W. H. Nelson, Mrs. Lindberg and Mrs. Chas. Risk. All members are asked to be present as there will be election of officers, and important business matters will be brought up. Visitors are welcome.

"LOU'S BAND" FORMED

Orchestra Will Render Music for All Occasions, Has Large Repertoire

A new orchestra has been organized under the direction of Lou Rifenrath, formerly piano player of Hedstrom's Hot Points. This orchestra will render music for all occasions from the old time square dances, schottisches and polkas to the latest dance numbers. They will operate under the name "Lou's Band" and further announcements will appear in this name.

Genius

Self-love is a principle of action; but among no class of human beings has nature so profusely distributed this principle of life and action as through the whole sensitive family of genius.—Disraeli.

RADIO ARTIST TO SING HERE

Belle Forbes Cutter, With Lovely Soprano Voice, in Recital Sunday, March 7

AUSPICES OF MUSICAL CLUB

Mme. Cutter Has Made Appearances With Leading American and Foreign Symphony Orchestras

Belle Forbes Cutter, a radio artist who has won her way into the hearts of millions of "listeners-in" throughout the country, has the established standing of possessing one of the loveliest soprano voices on the concert stage today. She will appear in recital Sunday afternoon, March 7, at the New Park theatre, under Brainerd Musical club auspices.

Mme. Cutter has made appearances with all the leading symphony orchestras of the United States and Europe. She has been acclaimed everywhere for her delightful performances. Especially pleasing are her renditions of the old songs, like "Last Rose of Summer," "Annie Laurie," etc.

Belle Forbes Cutter

Through her wide acquaintance among radio listeners she occupies a pre-eminent position in the broadcast field. She is nationally known, having in a comparatively short time through her radio broadcasts, created a position of prestige with one of the greatest, if not the largest audiences in the world.

The Chicago Evening Post says: "Belle Forbes Cutter possesses a lyric soprano voice of unusually sympathetic quality and extended range, which she uses with great ease and unflinching refinement."

Singing with equal facility in English, German, French and Italian including an extensive repertoire, Mme. Cutter is easily qualified to please the most critical audience. As a soloist with many symphony orchestras—and other musical organizations throughout the country, on various occasions—she has achieved the enviable record of being one of the most artistic singers ever making an appearance.

Mme. Cutter received the greater part of her musical education in Europe. She has studied with some of the most famous masters in France and Germany. One of her instructors was Franz Proschowsky, teacher of Galli-Curci.

During her studies abroad Madame Cutter made numerous appearances before royalty, with great success. She gave a special recital on one occasion for Queen Wilhelmina of Holland. While in Europe she received many flattering offers of engagements with opera companies, having appeared as guest artist in many of the larger opera houses there.

However, she decided that her happiness lay in America. Her decision was not in error. Her position in the world, of music, radio, concert and opera is unquestioned.

St. Paul's Episcopal Guild

St. Paul's Episcopal Guild will be entertained at the home of Mrs. James Richards, by Mrs. Richards, Mrs. Robinson and Mrs. Fleming on Wednesday, March 3, at 2:30 sharp.

COAST GUARD EXAMINATION

Young Men Have Opportunity to Complete Education at Government Expense

The U. S. Coast Guard will hold a competitive entrance examination for young men who wish to enter the Coast Guard Academy at New London, Connecticut, on June 22, 1926, according to word received here from Harold Knutson, member of congress from this district.

This is an exceptional opportunity for young men of the right caliber to complete their education at government expense and become commissioned officers in the U. S. Coast Guard. The pay and curriculum at the Coast Guard Academy are the same as at the U. S. Naval Academy at Annapolis.

Brainerd already has one representative in the Coast Guard Academy, Donald McKay, son of Mr. and Mrs. Charles D. McKay of this city, has been at the academy for almost two years.

Further information regarding the examination may be had by addressing Representative Harold Knutson, Washington, D. C.

REV. HAROLD ERICKSON

Will Conduct a Series of Meetings at Swedish Luthany Church Starting Tonight

Starting tonight at 7:45 o'clock there will be a series of meetings at the Swedish Luthany church with Rev. Harold Erickson of Freedom as the principal speaker. The meetings will be in the English language and are open to everyone.

Rev. Erickson is a gifted speaker and will have a message each evening that is sure to prove very interesting.

RAILROADS OF STATE PAY HIGHER GROSS EARNINGS TAXES

St. Paul, March 2.—(UP)—Railroads operating in Minnesota paid \$350,527 more in gross earnings taxes in 1925 than in 1924, it was learned from the state tax commissioner today following reports by the last three roads. A five per cent tax was paid by state roads on gross earnings. This amounted in 1925 to \$8,028,094 as compared with \$7,677,567 in 1924.

BEAR RAID ON PUBLIC UTILITIES STOCKS

New York, March 2.—(UP)—Public utilities stocks on the curb market and on the stock exchange were subjected to one of the largest bear raids in recent years today.

After the market had seemed stabilized for a time the selling traders picked on the public utilities as weak spots and sold them relentlessly during the fourth hour of trading.

The class "A" stock of the United Light and Power dropped 40½ points to 42.

The curb market was thrown into a veritable panic in the last half hour as traders fought madly to dispose of their utility shares. At 2:35 p. m. the tape was nearly 10 minutes behind actual transactions on the floor and each succeeding quotation was at a lower price.

Hudson and General Motors stocks, which had been bolstered during the morning trading, were subjected to heavy selling tactics in the last hour on Wall street. Hudson was down 1½ to 107 and General Motors was off 4½ at 118.

Other sections of the market were uncertain. Big banking interests in New York have the market situation well in hand and no dangerous collapse of real values is likely to result from the sensational breaks in different issues, according to leading financial authorities.

CHICAGO STOCK MARKET REFLECTS NEW YORK

Chicago, March 2.—(UP)—The Chicago stock exchange followed the New York stock exchange today with sharp price reductions in leading stock issues. United Light and Power "A" closed at 82 against yesterday's final figure of 115, a drop of 43. Auburn automobile stock dropped 6½.

At one time during the day Auburn was off 18 at 52½. Kraft Cheese dropped 9½ finishing at 71 and Middle West Utilities lost 4½ points with a close of 113½.

FLOOD OF SELLING MARKED

New York, March 2.—(UP)—After displaying a slightly improved tone for the first two or three hours the general market was overwhelmed by a flood of selling in the afternoon, and prices took drastic drops.

Pressure was first directed against the public utility stocks and substantial recessions were forced in American Waterworks, North American, Public Service of New Jersey, National Power and Light, Columbia Gas and other important issues of this class.

Motors were next subjected to a vigorous drive due to the belief they were being supported by interests hoping to rally the general list under their leadership.

Hudson and General Motors broke badly and sizable losses were experienced by the other active automobile shares.

Although call money dropped off to 4½ per cent after renewing at 5 per cent, the easier tone in the credit field was lost sight of in the rush to get out of stocks.

Red Peppers End
Rheumatic Pain
In Few Minutes

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

Lewis Stone and Shirley Mason in "What Fools Men"

Webster Novel Is Now Film Thriller

No chance to stop this elopement! He was a mail pilot.

And while daddy fumed, the propeller whirled, carrying his daughter nearer to the stars—and to happiness—that she had ever been in her life.

It's all a prophecy—but it will actually happen tonight and Wednesday at the Lyceum theatre, when the new First National offering, "What Fools Men," will be unfurled for the first time locally.

Situations equally interesting—plenty of them, it is said—punctuate the new play, which is peopled by such screen notables as Lewis Stone, Shirley Mason, Barbara Bedford, Ethel Grey Terry and many others.

"Marchete" the young lady Philippine violinist will open the vaudeville bill at the New Park tonight. She appears in native costume and uses a native stage set.

"The Rainbow Four" are four men harmony singers and will offer some excellent singing numbers.

Carr, Clifford and Carr is a comedy and singing and dancing act. This trio does some very clever comedy numbers, and their dance

numbers are very good also. They close with a burlesque number that is reported to be a riot. Special scenery is used.

"Hinkel and Mae" is about the best number four act offered at the New Park this season. Mr. Hinkel is really funny and you'll get a real laugh from him. His solo takes the audience by storm.

"The Kelleys" will offer some very attractive posing on a pedestal which wins for them much applause. The feature picture is "Black Lightning" featuring Thunder the dog marvel, and Clara Bow.

Obstinate Cases of
Hemorrhoids (Piles)

We note with satisfaction that a well known physician in his hospital and private practice has discovered that Moone's Emerald Oil diluted with equal parts of Olive Oil will help to reduce the most obstinate case of Piles with just a few applications and stop all itching, burning, bleeding and distress.

Sufferers should get a bottle of Moone's Emerald Oil and begin the treatment at once. It is a remedy that is easily applied and the first application gives instant relief and comfort. All good druggists have it, or can get it for you on short notice. —Adv.

Every-day Magic

Chairs that flop into beds . . . bags that suck up dirt . . . tiny ticking things that count all day long for you. Daylight any night just by pushing a button. A stream that never stops till you turn off a faucet. Any voice you want, talking to you from a cage on your desk or wall. Actions of yesterday, of people miles away, going on on a curtain before you. Stilled throats singing to you from discs; distant throats singing to you from nothing!

Uncanny daily magic—this, due to national advertising. Advertisements have given you flashlights, telephones, typewriters, automobiles, cold creams, motion pictures. They have given you new eyes, new ears, new hands, new feet, new faces, new emotions. They have urged such a wide use, so lowered prices, that almost wishes are autos, almost beggars can ride. Through advertisements you've laid down the shovel and the hoe. You can buy a whole harvest ready-to-eat in cans. You've hung up the fiddle and the bow, for a radio. There's little old-time work left in this age of amazing short-cuts.

Read the advertisements. They keep you to the fore of modern life
